EXPERIENCE

React Developer

Ottomern Technologies

📅 Sep, 2022 – Feb, 2024

Project Title: ByteReady

Role: React Developer

Technologies Used: React JS, Redux, MUI

Description: ByteReady is a web application that allows users to create and share their own posts on social media platforms like Instagram and Facebook.

Key Contributions:

- Developed the user interface (UI)
- Integrated APIs for data interaction
- Integrated data into charts for visualization

Project Title: Project Mix

Role: React Developer

Technologies Used: React JS, Bootstrap

Description: Project Mix is a custom product management web application designed to help businesses of all sizes streamline their product development process.

Key Contributions:

- Implemented a product lifecycle tracking application
- Managed complex states and tackled challenging API calls for interactive frontend components
- Implemented dashboards and APIs in the application

Project Title: CRM

Role: React Developer

Technologies Used: Reactjs, Redux, MUI, HighCharts, Moment, useForm

Description: Developed a web application for managing the company's relationships and interactions with customers, including marketing, sales, projects, activities, files, and finance.

Key Contributions:

- Utilized the MUI data grid for efficient data visualization
- Implemented frontend CRUD operations for direct data manipulation within the user interface
- Designed a dashboard using MUI for better user insights

Project Title: IT Asset Management

Role: React Developer

Technologies Used: React JS, MUI

Description: IT Asset Management (ITAM) is the strategic management of all IT assets throughout their lifecycle, from acquisition to disposal. It involves tracking and managing hardware, software.

Key Contributions:

- Designed and implemented the user interface (UI) for enhanced user experience.
- Integrated APIs to fetch and update data from external sources seamlessly.
- Developed a comprehensive dashboard to visualize key metrics and insights.

Game Developer Trainee

Algomics Technologies Private Ltd

📅 Oct, 2020 – Dec, 2020

Technologies Used: Javascript

- Developed the front-end of a casino game using JavaScript and the company's framework.
- Managed game assets and implemented game simulations.

EDUCATION

Bachelor of Technology, Dr A.P.J Abdul Kalam Technical University

Diploma in Engineering, Invertis University

High School, CBSE Board

TECHNICAL SKILLS

Tech Stacks

HTML | CSS | JavaScript | React.js | TypeScript | Redux-Toolkit | Redux-Thunk | TailwindCSS | MUI | Vite | Parcel | Babel | Node.js | MongoDB | Express.js | RESTful APIs | JSON

Tech Tools

Git | GitHub | Postman | Jira | VSCode

PROJECTS

TableTrekker [\[Github\]](#)

MERN | **Redux** | **MUI**.

- Implemented a system for ordering food from specific tables in a restaurant.
- Designed and implemented admin & customer panel interfaces, ensuring smooth data flow between React & Express.
- Collaborating on the overall application architecture.
